

ALAN LISOWSKI

Junior Full-stack Developer — [React + Node.js + PostgreSQL](#)

Olsztyn, Poland · pro4gramista@gmail.com · github.com/alanlisowski · linkedin.com/in/alan-lisowski · cv-beryl-nine-32.vercel.app

> SUMMARY

Programming-technician graduate from Poland with hands-on full-stack experience: shipped end-to-end web and mobile apps in React, React Native, TypeScript, Python, Node.js, and PostgreSQL — including auth, Stripe payments, AI/ML integration with Claude vision and CLIP, simulation modelling, and database schema design. Looking for my first full-time role; open to remote, hybrid, or relocation.

> SKILLS

Languages: JavaScript · TypeScript · Python · HTML · CSS

Frameworks: React · React Native (Expo) · Next.js · Node.js · FastAPI · Hono · Tailwind CSS · Vite

Tools: Git · Docker · PostgreSQL + pgvector · SQLite · Pydantic · Drizzle ORM · BullMQ · Stripe · Claude API

Learning: Testing (Vitest, pytest) · CI/CD · Observability

> EXPERIENCE

Software Development Intern — Intelty, Olsztyn

Autumn 2023

- Built UI features in React.js for production web applications.
- Integrated REST APIs between front-end and back-end services.
- Collaborated with senior developers in code review and pair-programming sessions.

Freelance Web Developer — Self-employed

2021 – 2023

- Designed and shipped websites for small local businesses and personal portfolios.
- Worked across the full stack: HTML, CSS, JavaScript, and Node.js.
- Owned client communication, scoping, and delivery deadlines.

Gap Year — Self-directed

2024 – 2025

- Cross-discipline work experience and international travel.
- Continued building side projects and deepening React/TypeScript expertise.
- Sharpened communication, adaptability, and time management across cultures.

> PROJECTS

PitWall — F1 Race Strategy Simulator — github.com/alanlisowski/pitwall

Python engine with a five-component lap-time model, non-linear tyre cliff, and reactive rule-based AI rivals; calibrated against the 2024 Hungarian GP. FastAPI + Pydantic over a SQLite cache (FastF1 ingestion). React + TypeScript + Vite + Recharts front-end. Live demo: Vercel + Render. Regression test verifies the undercut emerges from the model, never hardcoded.

Wardrobe AI — github.com/alanlisowski/wardrobe-app

Self-hosted AI wardrobe assistant. Mobile app (Expo) + Hono API + Python ML service. Items tagged via Claude vision + CLIP embeddings + k-means color extraction. Outfit suggestions ranked by a 5-factor weighted engine (color harmony, style coherence, formality, pattern, novelty). pnpm monorepo, Postgres + pgvector, BullMQ, Docker.

E-commerce Platform — github.com/alanlisowski/exodus-store

Full-stack storefront with user auth, product catalog, cart, and Stripe checkout. React front-end, Node.js API, PostgreSQL persistence. Handled secure payment flows and database schema design.

> EDUCATION

Programming Technician — Zespół Szkół Elektronicznych i Telekomunikacyjnych, Olsztyn

2018 – 2024

Relevant coursework: Data Structures, Algorithms, Web Development, Database Systems.

> CERTIFICATIONS

- IPC SPACE — Modern Electronics Assembly & Repair (2022)
- Penetration Testing (2022)
- ESD Protection — Static Electricity in Computer Repair (2022)
- BGA Diagnostics & Repair — Computer & Peripheral Components (2023)
